

**GlobE Wetlands in East Africa Project  
Household Survey**

“We are part of a team at the University of Dar Es Salaam and the University of Bonn and other collaborators, who are studying aspects on how communities interact with and benefit from wetlands in Kilombero and Ulanga Districts. You have been randomly selected to take part in this survey and therefore your participation in answering these questions is very much appreciated, but purely voluntary and free to withdraw anytime during the interview. Your responses will be **COMPLETELY CONFIDENTIAL**. Your responses will be added to those of 300 other households and analysed together. If you indicate your voluntary consent by participating in this interview, may we begin? If you have any questions or comments about this survey, you may contact Bisrat Haile on mobile phone no. +255688383707 or email:- bisrat.gebrekidan@ilr.uni-bonn.de.

B8: Indicate your opinion on the following statements, indicating to what extent you either agree or disagree

	Statement	1=Strongly Agree	2=Agree	3=Neutral /Don't know	4=Disagree	5=Strongly disagree
1	Compared to the past, the use of the wetlands for crop production in this area has increased					
	<b>Reason:</b>					
2	Compared to the past, the use of wetlands for material collection (fuels, building, e.t.c) has increased					
	<b>Reason:</b>					
3	Compared to the past, the level of fertility in the wetland has declined					
4	People in this community would support efforts to conserve the wetland(s)					
5	Compared to 10 years ago, the amount of water in the wetlands in this area has declined					
6	Compared to the last 10 years, fishing activities in the wetland have increased					
	<b>Reason:</b>					
7	People in this area feel that they own the wetland					
8	People in this area care about public natural resources					
9	I have witnessed some form of conflict over wetland resources in the past					
10	Government officials are effective in protecting the wetland					
11	It is safe to leave my home unattended because no one can steal anything					
12	People in this area feel generally secure when dealing with outsiders					
13	If I drop my wallet/purse somewhere within this village, I am likely to get it back					
14	People in this area have strong traditional attachment to wetlands					
15	Most of my neighbours have lost some assets or livestock to thieves within the last five years					
16	Farm sizes in my village have declined compared to the past					
17	The population in my village has increased currently compared to 10 years ago					
18	In the past 5 years, I have noticed an increase in the amount of income I generate from the Wetland					
19	My family's economic situation has improved compared with 5 years ago
